

OEMs know how they want their specialty equipment to perform. We have over 30 years of experience across a wide range of industries and know how to develop the optimal motor solution to make it happen. Our broad core technology range with unmatched feature flexibility and motor application expertise results in nearly limitless options to properly solve each unique application. Take advantage of our engineering design knowledge our your next generation machine.

Food Service Equipment

Applications

- Conveyor ovens
- Coffee machines
- Frozen beverage machines
- Soft-serve machines
- Juice dispense machines

Commercial Equipment

Applications

- Vacuum pumps
- Pool covers and cleaners
- Commercial sprayers
- Floor care equipment
- Hose reels

Automatic Door Operators

Applications

- Swing door operators
- Slide door operators
- Overhead door operators
- Access gate operators

Medical Equipment

Applications

- Patient mobility products
- Dosing equipment
- Infusion pumps
- Therapy products
- Rehab equipment
- Medical tools

Commercial Ice Machines

Applications

- Augers
- Agitators
- Scrapers
- Compressors
- Dispensers

HVAC & Building Automation

Applications

- HVAC actuators
- Louver control
- Motorized shades
- Access gates

Smart Agriculture Equipment

Applications

- Autonomous steering
- Sprayers
- Planters
- Crop analyzers
- Conveyors

Pumps

Applications

- Medical pumps
- Lubrication pumps
- Vacuum pumps
- Chemical injection pumps
- Hose reels
- Beverage equipment pumps

Material Handling

Applications

- AGV/AMRs
- Conveyor systems
- Diverting systems
- Labeling systems
- Autonomous carts
- Powered pallet jacks

Security Systems

Applications

- Door locks
- Pedestrian access gates
- Surveillance cameras
- Scanning equipment
- Vehicle access gates

Robotics

Applications

- AGV/AMRs
- Grippers
- End of arm tooling
- Cobots
- Autonomous floor cleaners

Design. Sourcing. Quality. Logistics. Support.
